Kotlin Multiplatform Developer

Muhammad Shayan Nawaz

Sargodha, Pakistan | hello@shayxo.dev | +92 331 6535987 | linkedin.com/in/shayann07 | github.com/shayann07

SUMMARY

Kotlin Multiplatform (KMP) developer with 2+ years of experience building reliable apps with a focus on stability and performance, sharing one codebase across Android, iOS, desktop, and web. Shipped 9 apps on Google Play with 70K+ installs, combining independent problem solving with clear communication and structured, iterative workflows to maintain quality while meeting real-world needs.

EXPERIENCE

Kotlin Multiplatform Developer

May 2026 – Present

Webscare, Sargodha

- Build and maintain cross-platform apps with Compose Multiplatform and MVI across 50+ shared modules.
- Shipped 5 apps on Google Play, including Urdu Speech to Text and Speedometer GO, through CI/CD releases.

Android Developer

Sep 2025 – Mar 2026

TudoNum, Portugal

- Developed a services marketplace with 50+ screens covering booking, provider bidding, in-app chat, and payments.
- Integrated REST APIs with secure sign-in and offline caching to improve stability and smooth browsing.

Freelance Android Developer

Jun 2024 – Present

Self-Employed

- Delivered 3 production apps with 10K+ installs using offline-first sync, Firebase, Room, and stable release workflows.
- Developed LUP Reader, a reading aid for low-vision users in Spain that reads text aloud in 6 languages.

Android Developer Intern

May 2025 – Aug 2025

Appverse Technologies, Lahore

- Built Android modules using MVVM architecture and improved app stability through refactoring and unit testing.

EDUCATION

Bachelor of Science in Software Engineering

2022 – 2026

University of Sargodha

PROJECTS

UrduCanvas — *Urdu design editor built with Kotlin Multiplatform on Canvas, 10K+ installs*

InvoiceOne — *Kotlin Multiplatform invoicing app for Android, iOS, desktop, and web*
